**COMMENTS:**

As a resident of Caliente for the last 27 years, I'm thrilled that you've chosen the "Caliente Corridor" and I'm sure you'll find an able and ready workforce to employ in your efforts. Having borne witness to the steady decline of our community, I'm in full support that all transportation support & logistical facilities be placed in Caliente and the aforementioned workforce tapped as soon as possible. It would provide an economical boost for not only Caliente, but Lincoln County as a whole and would provide a benefit for the whole country. Yet, proper mitigation before the issuance of any alignment drafts is of utmost importance to myself & my fellow citizens; we don't wish to be expendable. We are a struggling but strong community, proud of our history and looking forward to the future; one that includes a viable & collaborative relationship with the DOE. Thank you!

**Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.**

**If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.**

**Please feel free to attach additional pages (if mailing, more postage may be needed).**
